

DWA_03.5 Knowledge Check_DWA3.2

1. User story(ies) in Gherkin syntax for the "+" button.

Feature: Increment Counter:

As a user, I want to be able to increment a counter value so that I can keep track of numbers.

Scenario: Incrementing the counter

Say I am on the counter page

And the current counter value is 1

When I click on the "+" button

Then the counter value should increase by 1

And new counter value should be 2

2. User story(ies) in Gherkin syntax for the "-" button.

Feature: Delete Items

As a user, I want to be able to decrement a counter value, So that I can adjust the numbers

Scenario: Decrementing the counter

Given I am on the counter page

And the current counter value is 10

When I click on the "-" button

Then the counter value should decrease by 1

And the new counter value should be 9
